**PINpoint for BlackBerry® now listed on The U.S. Government's  
General Services Administration (GSA) Schedule**

**Toronto, ON, July 9th, 2009** — Tenet Computer Group Inc., a leading provider of wireless mobility applications, today announced it has partnered with Government Marketing & Procurement, LLC (GMP), to be the exclusive GSA holder of PINpoint for BlackBerry® .

PINpoint keeps people connected during the most critical of times: power outages, server failures and emergency situations. PINpoint for BlackBerry® gives you peace of mind that you have the most current and reliable contact information at all times. PINpoint for BlackBerry® ensures accurate PIN-to-PIN messaging in crisis situations, quickly turning any BlackBerry® infrastructure into an emergency communications network that is easy-to-deploy and very affordable.

PINpoint allows Government agencies to have an effective back-up communication network in place aimed to extend and harden their current BlackBerry® deployments.

“A challenge Government agencies face today is how to implement accurate, secure wireless back-up communications across multiple agencies,” says Rick Jordan, Business Development Manager for Tenet. “Our partnership with GMP enables us to exclusively provide a powerful, secure mobile application to assist government agencies to have effective crisis communications in place utilizing the BlackBerry® platform. We’re giving crisis management teams across the country the ability to have effective crisis communications in place with the PINpoint solution”. PINpoint for BlackBerry® is now listed on GSA through GMP under schedule Number GS-35F-0858N.
