PINpoint for BlackBerry® Expands into Caribbean Territory through partnership with R&J Turnbull Ltd.

Toronto Canada, March 3rd, 2010 – Caribbean consulting company R and J Turnbull Ltd of Barbados, has become Tenet Computer Group's partner for the English Speaking Caribbean Region, for the world-leading PINpoint for BlackBerry Emergency Communications and Business Continuity Solution. Bob Turnbull, CEO of R and J Turnbull Ltd stated, "I'm excited to bring leading edge technology to facilitate increased effectiveness for local Government, Disaster organizations and companies to better manage their Business Continuity and Emergency Communications capability.

Rick Jordan, Director of Sales and Strategic Alliances for Tenet Computer Group Inc, stated, "We welcome the opportunity to collaborate with R & J Turnbull Ltd, whose in-depth knowledge of Business Continuity will allow them to enhance productivity in Risk Governance and Emergency Communications in the Caribbean Region and surrounding countries through collaborating with Tenet Computer Group and leveraging the power of the PINpoint solution."

PINpoint allows Corporate and Government agencies to have an effective back-up communication network in place aimed to extend and harden their current BlackBerry® deployments to store and distribute contact numbers, evacuation floor plans, documents and emergency procedures.
