Tenet's PINpoint for BlackBerry®
Nominated for "Most Innovative Solution of the Year"
In UK Business Continuity Awards
www.businesscontinuityawards.com

Toronto, April 9, 2010 –Tenet Computer Group Inc. is proud to announce that its PINpoint application has been nominated as a finalist in the category of **Most Innovative Solution of the Year** in the prestigious **Business Continuity Awards 2010** organized by the UK's Continuity Insurance & Risk magazine, in association with London First and the City of London (England).

Now in their 12th year, the CIR awards are widely acknowledged as the premier awards for the business continuity industry. "It is a great honour for us to be a finalist in this competition, and particularly in the category of Most Innovative Solution of the Year", remarked Rick Jordan, Tenet's Director of Sales & Strategic Alliances, Mobility, "The recognition and exposure will enhance our ability to expand our presence in the UK and Europe".

Tenet's PINpoint is an enterprise emergency preparedness and response application that leverages BlackBerry smartphones to facilitate communications and coordinated action. "BlackBerry smartphones, and the infrastructure that supports them, make them ideal tools for emergency management and continuity of operations", noted Carlos Paz-Soldan, Tenet's President and Chief Technology Officer.

The winners will be unveiled during the Gala Awards Dinner on May 12, 2010 at London's Park Lane Hilton.
